TO CORRESPONDENTS.

"*Brickmaking.*"—A correspondent asks.—Whether peat can be safely used to burn bricks; and if it has ever been extensively applied to that purpose?

"F. F.," "B. B.," "Thesus" (if the house in Pall Mall alluded to is now No. 61, this was built by a Duke of Schomberg about 1719), "Amateur Bricklayer," "W. R. P." (we should use a stone lintel and not an arch), "T. G. R.," "Constant Reader" (we are not in a condition to offer an opinion), "M. C.," "W. T." (the removal of the brick duties has been urged by many: we do not remember seeing Mr. T.'s pamphlet), "A Contractor," "H. C." (before the abolition of the duty, bricks so made were taxed), "X. Y." (salaries depend on the ability of the parties), "J. M. and Co.," "Constant Reader," "Working Bricklayer," "W. B." (next week), "D. R. H.," "J. E.," "Welbrock" (explain), "P. P.," "J. J.," "J. H.," "A. Z.," "Schedule L," "W. W.," "J. A. P.," "E. W. G."—"Extramural Burial" (Effingham Wilson, 1856); "Perspective, its Principles and Practice," by G. B. Moore (Taylor, Walton, and Co., 1850).

"*Books and Addresses.*"—We have not time to point out books or find addresses.

NOTICE.—All communications respecting *advertisements* should be addressed to the "Publisher," and not to the "Editor:" all other communications should be addressed to the EDITOR, and *not* to the Publisher.

E. has also for immediate disposal a quantity of stouth crossbars, barrow, sash frames and sash tops, complete, at 9s. per barrow.

JORDAN'S PATENT MACHINE CARVING and MOULDING WORKS for WOOD and STONE, Belvedere-road, Lambeth, and 154, Strand.—TAYLOR, WILLIAMS, and JORDAN beg to call the attention of the building community to a new feature of their establishment, and, at the same time, to thank their numerous patrons and friends for the very liberal report they have lately experienced, which they assure them and the public, it will be their constant endeavour to deserve, by giving their customers an increasing share of the advantages arising from the constant improvements in the machinery which they have just succeeded in applying to the production of the most intricate carving in Oaks and other frontboards, and in statuary marble.

T., W., and J. particularly solicit the attention of architects and builders to the fact that, by the use of this machinery, a very large saving, both of time and money, is effected.—a great object indeed, that in many cases they can deliver a well-finished article in Caen stone for less money than it can be obtained in cement, while their wood-carving will, in some cases, be found to come into close competition with the most kinds of composition ornaments.—For prices and estimates apply at 154, Strand.

TESTIMONIAL FROM CHARLES BARRY, ESQ.

"Westminster, May 16th, 1848.

"Gentlemen,—In reply to your letter requesting my opinion of your patent Carving Machinery, I have much pleasure in stating, from an experience of more than two years, in the application to the productions of the wood carvings of the House of Peers, and other apartments of the New Palace, at Westminster, that I am enabled to make the most favourable report concerning it, and to add that it has more than justified the favourable terms in which I recommended it to Her Majesty's Commissioners of Woods and Works for adoption.—I remain, Gentlemen, yours faithfully,

"CHARLES BARRY."

Messrs. Taylor, Williams, and Jordan."
